## About Us

With decades of experience and a commendable skill set, we, Anuradha Mineral Corporation, are thriving as a noteworthy manufacturer and supplier in the industry. The products we deal in include Talc Powders, Dolomite Powders, Limestone Powders, Mineral Powders, etc. All the aforementioned products set us apart from our competitors. Because our products have longer shelf lives, are fine and pure, have low moisture content, great flow-ability, and can easily absorb grease and oil, they have proven to be the best purchase for customers across diverse locations in the nation.

Our team of diligent professionals focuses all their attention on making our product line stand out in the market. Other than this, they understand the significance of conducting each and every business operation in an ethical and transparent manner. So our valued customers can rest assured that we are not indulging in any kind of fraud or unethical work practice.
